Technical Information

ASPHALTENE DISPERSANT STIX – 731 “ADS – 731”

PRODUCT DESCRIPTION

ADS -731 keeps asphaltenes solublized (in suspension) and dispersed to avoid re flocculation (rejoining of particles) and reduce the size of particles. **ADS -731** also works well in oil-wells to thin and disperse Paraffin's. Formulated to allow increased contact between solvents and deposits even in the presence of water.

PRODUCT ADVANTAGES

ADS -731 is a lower cost application. **ADS -731** is convenient to apply and an economical problem solver. **ADS -731** is safer to handle than the alternative of liquid products. **ADS -731** can reduce the frequency of expensive acid jobs and other expensive operations.

STORAGE AND HANDLING

ADS -731 should be stored in a cool, dry location. Always remove stix from cardboard tube. Always try to use gloves to avoid contact with hands. As with any industrial chemical, keep out of reach of children and avoid prolonged contact with skin. A material safety sheet outlining proper handling of this product is available upon request, or will be forwarded upon the purchase of **ADS -731**.
