## Product Bulletin

### Chem Treat 401 Paraffin Solvent/Dispersant

#### PRINCIPAL USES

---

Chem Treat 401 is a blend of organic materials designed to control paraffin problems in oil field production. Chem Treat 401 is highly effective in preventing paraffin deposition in tubing, production lines and treating vessels. Chem Treat 401 will prevent the solidification of paraffin in production systems. Chem Treat 401 has demulsifying properties that prevent oil-water-wax emulsions from forming at the interface.

#### PRODUCT BENEFITS

---

- Prevents paraffin accumulations
- Reduces flowline pressures
- Suitable for formation squeeze treatments
- Prevents tank bottom build-up
- Lowers pour point by 10° F - 20° F
- Enhances performance of emulsion

#### GENERAL DESCRIPTION

---

Form....Liquid	Specific Gravity....0.98
Color....Light to medium amber	Flash point....70°F
Odor....Aromatic and ketone	Density....8.1 lbs./gal
Solubility....Oil soluble and slightly water soluble	pH....6.0
Freezing point....<20°F	

#### DOSAGES AND FEEDING

---

Required treatment rates will vary with type crude, temperature and exposure time.

**Batch Treatment:** 10-55 gallons circulated for 8-12 hours will usually provide excellent cleaning of the system.

**Continuous Injection:** Use 500-1000 ppm for 2-5 days to clean the system, then reduce to 150-500 ppm to maintain it.

**Storage Tanks:** Determine ppm needed to liquefy solid paraffin in tank. Blend correct volume of chemical in solvent and then blend into tank by agitation with air, pump or other suitable mixing device.

## **SAFETY AND HANDLING**

---

Causes irritation to skin and eyes. Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves when handling. In case of contact, flush with large amounts of water; for eyes, also get medical attention. Avoid prolonged or repeated breathing of vapor. Use with adequate ventilation. Flammable! Do not use, store, spill or pour near heat, spark or open flame. Keep container closed when not in use.

For additional information see SDS.

For medical and transportation emergencies involving Gas Well Supply products, please call (530) 870-7667.

## **SHIPPING**

---

Chem Treat 401 is shipped in nonreturnable steel 55 gallon drums and in bulk quantities to customer locations.
